

CONFLICT MINERALS STATEMENT

Conflict minerals refer to raw materials or minerals that come from a particular part of the world where conflict is occurring and affects the mining and trading of those materials. Today referred to as 3TG; tin, tantalum, tungsten, and gold, but also in extended initiative on this matter for the minerals mica and cobalt.

According to Jotun's human rights policy, Jotun is committed to responsible sourcing of raw materials. This sourcing includes assessments to avoid use of raw materials that are connected to human rights violations.

Jotun has integrity due diligence procedures for raw material suppliers and sourcing of raw materials. If we suspect non-conformance, Jotun will take action and follow up. If compliance cannot be documented, the supplier will not be accepted and used by Jotun.
